- B. This Subcontract, which term shall be determined to include related plans, drawings, specifications, and other documents, contains the entire agreement and understanding between the parties as to the subject matter of this Subcontract, and merges and supersedes all prior agreements, understandings commitments, representations, writings, electronic or otherwise, and discussions between them. Neither of the parties will be bound by any prior obligations, conditions, warranties, or representations with respect to the subject matter of this Subcontract. The parties agree that recourse may not be had to the alleged prior dealings, usage of trade, course of dealing, or course of performance to explain or supplement the express terms of this Subcontract.

- C. The failure of either party to enforce at any time any of the provisions of this Subcontract or to require at any time performance by the other party of any of such provisions shall in no way be construed to be a waiver of such provision, nor in any way to affect the validity of this Subcontract or any parts thereof, or the right of either party thereafter to enforce each and every provision.

- E. All references herein to the Department of Energy Acquisition Regulations (“DEAR”) or Federal Acquisition Regulations (“FAR”) are those in effect on the date of this Subcontract.
- F. In the event of an inconsistency between provisions of this Subcontract, the inconsistency shall be resolved by giving precedence as follows:

- D. When NQA-1 is invoked as the governing quality standard, the Seller and applicable subtier subcontractor shall be required to meet the Part 1 Requirements (Sections 100 through 900, as determined to be applicable) as part of the agreement. NQA-1 Part II will be invoked at the discretion of BSRA and will be detailed as part of the agreement., and if invoked, must be flowed down from the Seller to its applicable subtier subcontractor at all levels. If the Seller or its subtier subcontractor intends to upgrade materials by way of a Commercial Grade Dedication Process, BSRA must be notified of this intent and the Subcontractor’s process verified and approved prior to dedicating any material associated with BSRA procurement.

- A. BSRA may unilaterally and at any time, by a written Change Order from the BSRA Procurement Department, and without notice to the sureties, if any, make changes within the general scope of this Subcontract. If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the Work under this Subcontract, and Subcontractor timely requests an equitable adjustment, BSRA shall make an equitable adjustment in (1) the contract price, (2) the time of performance or delivery schedule or both; and (3) other affected terms of this Subcontract, and shall modify this Subcontract accordingly. For any change, whether directed or constructive, Subcontractor must assert any request for equitable adjustment under this article in writing, together with such supporting information as BSRA may require, and within thirty (30) days from the date of Subcontractor's first knowledge of the change; or Subcontractor's right to assert such request for equitable adjustment shall be waived. Where the cost of property made obsolete or excess as a result of a change is included in Subcontractor's proposal for adjustment, BSRA shall have the right to prescribe the manner of disposition of such property. Failure to agree to any adjustment shall be a dispute within the meaning of the article of this Subcontract entitled "Disputes". However, nothing herein shall excuse Subcontractor from proceeding with this Subcontract as changed.
- B. Any changes, extras or additional work made or performed by Subcontractor without the prior approval of the BSRA Procurement Department shall be at the sole risk and expense of Subcontractor, there being no financial recourse against BSRA or the Government whatsoever.
- C. Subcontractor shall not substitute other equipment or materials for those specified in this Subcontract, or vary the quantity of the Work, or otherwise make any changes in the Work, without prior written consent of BSRA.

1.5. **APPROVALS**

- A. The approval by BSRA of designs, work drawings, specifications, reports, or any other data submitted by Subcontractor hereunder shall not affect or relieve Subcontractor from any responsibility to furnish said items in full conformance with the requirements of this Subcontract.

1.6. **DELIVERY AND PAYMENT**

- A. Subcontractor shall work such hours, as may be necessary to meet the Subcontract delivery date(s), or any duly authorized extensions thereof, at no increase in the price of this Subcontract. Subcontractor shall issue electronically all invoices directly to Accounts Payable via the ACCOUNTSPAY-BSRA@sml.doe.gov email account. If there are invoice discrepancies, BSRA will relay to the subcontractor the deficiencies in their invoice within ten (10) days of receipt of the invoice. The invoice will not be acted upon. Receipt of a corrected invoice will reinstate the ageing of the invoice for payment purposes.
- B. Unless otherwise provided in this Subcontract, delivery shall not be made more than fifteen (15) days prior to the delivery dates specified herein and BSRA may return earlier deliveries at Subcontractor's risk and expense. Subcontractor shall comply with the delivery schedule provided in this Subcontract.
- C. Unless otherwise specified in this Subcontract, a separate invoice shall be issued upon each delivery of Supplies or completion of Services, and shall be payable by BSRA upon receipt and acceptance of Supplies or completion of Services and receipt by BSRA of a correct invoice. Credit and discount periods shall be computed from the date such invoice is so payable to the date BSRA's check is mailed or, for EFT, the specified payment date. Unless freight and other charges are itemized, the discount will be taken on the full amount of invoice.

- D. Payment Withheld - Vendor Data. If this Subcontract requires the submittal of Vendor Data, and if such Vendor Data, or any part thereof, is not delivered within the time specified by this Subcontract, or is deficient upon delivery, BSRA may, until such Vendor Data is delivered or deficiencies are corrected, without limiting any of its other rights or remedies, withhold payments not to exceed 20% of the Subcontract price to the Subcontractor.
- E. Notwithstanding anything herein, BSRA shall be entitled at any and all times to set off against any amounts payable at any time by BSRA hereunder any amount owing from Subcontractor to BSRA under this Subcontract or other subcontracts with Subcontractor.
- F. Overpayments. If Subcontractor becomes aware of a duplicate invoice payment or that BSRA has otherwise overpaid on an invoice payment, the Subcontractor shall immediately notify BSRA and request instructions for disposition of the overpayment.

1.7. PAYMENT BY ELECTRONIC FUNDS TRANSFER

- A. Methods of Payment
 - (1.) All payments by BSRA under this Subcontract shall be made by EFT except as provided in paragraph A.2 of this Section. As used in this Section, the term "EFT" refers to the funds transfer and may also include the payment information transfer.
 - (2.) In the event BSRA is unable to release one or more payments by EFT, Subcontractor agrees to either:
 - (a.) Accept payment by check or some other mutually agreeable method of payment; or
 - (b.) Request BSRA to extend payment due dates until such time as BSRA makes payment by EFT.
- B. Mandatory Submission of Subcontractor's EFT Information. Subcontractor is required to provide BSRA with the information required to make payment by EFT. Subcontractor shall provide this information directly to the office designated in this Subcontract, on forms provided by BSRA, no later than fifteen (15) days after award. If not otherwise specified in this Subcontract, the payment office is the designated office for receipt of Subcontractor's EFT information. In the event that the EFT information changes, the Subcontractor shall be responsible for providing the updated information to the designated office.
- C. Mechanisms for EFT Payment.
 - (1.) BSRA may make payment by EFT through either the Automated Clearing House ("ACH") network, subject to the rules of the National Automated Clearing House Association, or the Fedwire Transfer System.
- D. Suspension of Payment
 - (1.) BSRA is not required to make any payment under this Subcontract until after receipt, by the designated office, of the correct EFT payment information from Subcontractor. Until receipt of the correct EFT information, any invoice or subcontract-financing request shall be determined to be an incorrect invoice for the purpose of payment under this Subcontract.
 - (2.) If the EFT information changes after submission of correct EFT information, BSRA shall begin using the changed EFT information no later than thirty (30) days after its receipt by the designated office. However, Subcontractor may request that no further payments be made until the updated EFT information is implemented by the payment office.
- E. Payment Information
 - (1.) On the day payment on Subcontractor's invoice is due, BSRA will issue instructions to its bank to transfer payment to Subcontractor, and will also send a notification to Subcontractor explaining the details to support the payment.
- F. Liability for Uncompleted or Erroneous Transfers.
 - (1.) If an uncompleted or erroneous transfer occurs because BSRA used the Subcontractor's EFT information incorrectly, BSRA remains responsible for –
 - (a.) Making a correct payment; and
 - (b.) Recovering any erroneously directed funds.
 - (2.) If an uncompleted or erroneous transfer occurs because Subcontractor's EFT information was incorrect, or was revised within 30 days of BSRA release of the EFT payment transaction instructions to the bank, and –

- (a.) If the funds are no longer under the control of the payment office, BSRA is considered to have made payment and the Subcontractor is responsible for recovery of any erroneously directed funds; or
- (b.) If the funds remain under the control of the payment office, BSRA shall not make payment and the provisions of paragraph D shall apply.

1.8. PASSAGE OF TITLE AND LIENS

- A. Title to the Supplies shall pass to the Government at the place of delivery to BSRA. If purchased F.O.B. "shipping point", delivery to the carrier shall be considered to be delivery to BSRA.
- B. Subcontractor agrees to furnish the Work free and clear of all liens, claims, and encumbrances. In the event that a lien of any nature shall at any time be filed against the Work or Subcontractor or a Subcontractor's facility by any person, firm, or corporation which has supplied equipment, material, services or data, Subcontractor agrees promptly, on demand of BSRA and at Subcontractor's expense, to take any and all action necessary to cause any such lien to be released or discharged therefrom. Subcontractor agrees to indemnify and hold BSRA harmless from all liens, claims, or demands in connection with the Work.
- C. Except as otherwise provided in this Subcontract,
 - (1.) Subcontractor shall be responsible for the loss or destruction of, or damage to, the Supplies until delivered at the designated delivery point, regardless of the point of inspection.
 - (2.) After delivery to BSRA at the designated point and prior to acceptance or rejection by BSRA, Subcontractor shall be responsible for the loss or destruction of or damage to the Supplies unless such loss, destruction, or damage results from negligence of the officers, agents, or employees of BSRA or the Government acting within the scope of their employment; and
 - (3.) Subcontractor shall bear all risks as to the rejected Supplies after rejection.

1.9. ASSIGNMENT

- A. BSRA may assign this Subcontract to the DOE or to such party as DOE may designate to perform BSRA's obligations hereunder. Upon receipt by Subcontractor of written notice that the DOE or a party so designated by the DOE has accepted an assignment of this Subcontract, BSRA shall be relieved of all responsibility hereunder and Subcontractor shall thereafter look solely to such assignee for performance of BSRA's obligations. Subcontractor shall not assign or transfer this Subcontract or any interest herein, or claims hereunder, without the prior written consent of BSRA or BSRA's assignee.

1.10. WORKMANSHIP AND MATERIALS

- A. Unless this Subcontract specifies otherwise, the Subcontractor represents that all workmanship, supplies and components, including any former Government Property identified in this Subcontract are new, including recycled (not used or reconditioned) in conformance with industry standards and are not of such age or so deteriorated as to impair their usefulness or safety. The Subcontractor shall not provide material or equipment that contains material that is known to be suspect or counterfeit (see paragraph E below). If the Subcontractor believes that furnishing used or reconditioned supplies or components will be in the Government's interest, the Subcontractor shall so notify the BSRA Procurement Specialist in writing. The Subcontractor's notice shall include a proposal for consideration by BSRA that states the reason for the request to use reconditioned or used supplies or components.
- B. Wherein the specifications items are referred to as "equal to" any particular standard, BSRA shall decide the question of equality.
- C. If required elsewhere in this Subcontract, Subcontractor shall submit for approval samples of, or test results on, any materials proposed to be incorporated in the Work before making any commitment for the purchase of such materials. Such approval shall not relieve Subcontractor of any of its obligations hereunder.
- D. The Subcontractor shall perform all Work under this Subcontract in a skillful and workmanlike manner by agreeing to utilize only experienced, responsible and capable employees, to include subtier subcontractor, in the performance of the work. BSRA may require that the Subcontractor remove from the job, employees to include subtier subcontractor, who endanger persons or property, or whose continued employment under this Subcontract is inconsistent with the interests of security or safety at the Savannah River Site (SRS).
- E. Suspect or Counterfeit Parts
 - (1.) Subcontractor shall supply products under this Subcontract that are not and do not contain suspect and/or counterfeit parts. A suspect item is an item in which there is an indication by visual inspection, testing, or other information that it may not conform to established government or industry accepted specifications or national

consensus standards or whose documentation, appearance, performance, material, or other characteristics may have been misrepresented by the vendor, supplier, distributor, or manufacturer. A counterfeit item is any item that is a copy or substitute without legal right or authority to do so, or one whose material, performance, characteristics or identity does not appear to be authentic and is verified to be either counterfeit or fraudulent or have been misrepresented. Failure by the Subcontractor to document material substitution or identify that an item has been refurbished or remanufactured is considered to be fraud, and the item then becomes suspect/counterfeit.

- (2.) If it is determined that a suspect/counterfeit part has been supplied, BSRA will impound the items pending a decision on disposition. The Subcontractor may be required to replace such items with items acceptable to BSRA and shall be liable for all costs relating to the impoundment, removal, and replacement. BSRA may also notify the local Department of Energy Office of Inspector General and reserves the right to withhold payment for the items pending results of the investigation.

1.11. **WARRANTY**

- A. Subcontractor warrants that the Supplies shall be free from defects in material and workmanship, of the most suitable grade of their respective kinds for the purpose and comply with all requirements set forth in this Subcontract, until one year after confirming supplies are first placed into service by BSRA, or three years after final payment, whichever first occurs. Subcontractor shall correct any nonconformity with this warranty at its sole expense, as directed by BSRA, by promptly: (i) repairing or replacing the nonconforming Supplies specified (and correcting any plans, specifications, or drawings affected); (ii) furnishing BSRA any materials, parts, and instructions necessary to correct or have corrected the nonconformity, or (iii) paying to BSRA a portion of the Subcontract price as is equitable under the circumstances.
- B. Subcontractor warrants that the Services shall reflect the industry standards of professional knowledge and judgment, shall be free from defects in workmanship, and shall be in compliance with all requirements of this Subcontract, until one (1) year from the completion of the Services. Subcontractor shall correct any nonconformity with this warranty at its sole expense, as directed by BSRA, by promptly (i) re-performing the nonconforming Services or (ii) paying to BSRA a portion of the Subcontract price as is equitable under the circumstances.
- C. If Subcontractor fails to perform its obligations promptly under this Section, BSRA may perform, or have performed such obligations and Subcontractor shall pay BSRA all charges occasioned thereby.
- D. The warranty with respect to corrected Supplies or Services shall be subject to the same terms as the warranty provided for in paragraphs A and B of this Section. The warranty for other than corrected or replaced Supplies or Services shall continue until the expiration of such period and a period equal to the time elapsed between the discovery of the nonconformity and its correction.
- E. Unless installation is an element of the Work, Subcontractor shall not be obligated under this Section for the costs of removal or reinstallation of any Supplies furnished or items Serviced hereunder from the location of their installation, or for the costs of removal or reinstallation of structural parts or items not furnished by Subcontractor hereunder. Subcontractor shall in any event bear all packing, packaging, and shipping costs from the place of delivery to the Subcontractor's plant and return to the place of delivery, and shall bear all risk of loss or damage for the items upon which Services have been performed or Supplies while in transit.
- F. Unless decontamination is an element of the Work, in the event that Subcontractor's costs in correcting any nonconformity under this section are increased solely because the Supplies furnished or items Serviced hereunder must be decontaminated to the level specified in the definition of "radiation area" in 10 CFR 20.202, this Subcontract price shall be equitably adjusted to reflect such additional costs after prompt written notification thereof by Subcontractor to BSRA.
- G. The provision of this section shall apply notwithstanding inspection, acceptance, or any other provision of this Subcontract, and shall not limit any other of BSRA's rights and remedies.
- H. Implied Warranties. The Subcontractor warrants and implies that the products, supplies, items, or services delivered hereunder are merchantable and fit for use for the particular purpose described in this Subcontract.
- I. Latent Defects. In the event the Subcontractor becomes aware of any latent defect(s) in any item(s) furnished under this Subcontract, the Subcontractor shall promptly notify the BSRA Procurement Specialist. This notice shall provide at a minimum the following information:
- (1.) full description of the item(s);
 - (2.) manufacturer, model and/or part number;
 - (3.) complete description of the latent defect
 - (4.) impact of the defect on the operation of the item(s);

- (5.) action(s) to be taken by BSRA relative to return, re-fit, repair, etc.;
- (6.) date of purchase by BSRA; and,
- (7.) applicable BSRA subcontract number.

1.12. **SUBCONTRACTOR'S INSPECTION REQUIREMENTS**

- A. Subcontractor is responsible for performing, or having performed, all inspections and tests necessary to substantiate that the Supplies or Services furnished under this Subcontract conform to Subcontract requirements, including any applicable technical requirements for specified manufacturers' parts. This section takes precedence over any BSRA inspection and testing required in the specifications, except for specialized inspections or tests specified to be performed solely by BSRA.

1.13. **GOVERNMENT PROPERTY**

NOTE: if the total acquisition cost of all Government Property furnished under this Subcontract or Subcontract is \$100,000.00 or less, Paragraph F of this Section is deleted and the following Paragraph A is submitted in lieu thereof:

- A. The Subcontractor shall be responsible and accountable for all Government Property provided under this Subcontract. The Subcontractor shall maintain adequate property control records in accordance with sound industrial practice and will make such records available for BSRA inspection at all reasonable times. The Subcontractor shall provide an annual inventory listing identifying all Government Property associated with this Subcontract. The inventory shall include the following information for each property item: ID number, description, manufacturer, model number, serial number, acquisition date, acquisition value, condition, location, and primary user.
- B. Government Property
- (1.) BSRA shall deliver to the Subcontractor, for use in connection with and under the terms of this Subcontract, the Government Property described elsewhere in the Subcontract or specifications together with any related data and information that the Subcontractor may request and is reasonably required for the intended use of the property (hereinafter referred to as "Government Property").
 - (2.) 1.16. TERMINATION FOR CONVENIENCE OF BSRA

- A. BSRA may, in its sole discretion, and by written notice, terminate this Subcontract, in whole or in part, when it is in BSRA's interest to do so. If this Subcontract is so terminated, the rights, duties, and obligation of the parties, including compensation to Subcontractor, shall be in accordance with Part 49 of the FAR as supplemented or modified by Part 949 of the DEAR in effect on the date of this Subcontract. BSRA shall effectuate the termination of this Subcontract by delivering to Subcontractor a Notice of Termination specifying the extent of termination and the effective date. Upon receipt of the notice, if title to property is vested in Subcontractor under this Subcontract, it shall revert to the Government regardless of any other article of this Subcontract, except for property that Subcontractor disposed of by bona fide sale or properly removed from the site.
- B. After receipt of a Notice of Termination, and except as directed by BSRA, Subcontractor shall immediately proceed with the following obligations, regardless of delay in determining or adjusting any amounts due under this article:
 - (1.) Stop Work as specified in the notice.
 - (2.) Place no further subcontracts or orders (collectively referred to as "Lower-Tier Subcontracts" in this Section) for materials, services, or facilities, except as necessary to complete the continued portion of this Subcontract.
 - (3.) Terminate all Lower-Tier Subcontracts to the extent they relate to the Work terminated.
 - (4.) Assign to the Government, as directed by BSRA, all right, title, and interest of Subcontractor under the Lower-Tier Subcontracts terminated, in which case BSRA shall have the right to settle or to pay any termination settlement proposal arising out of those terminations.
 - (5.) With approval or ratification to the extent required by BSRA, settle all outstanding liabilities and termination settlement proposals arising from the termination of Lower-Tier Subcontracts; the approval or ratification will be final for purposes of this Section.
 - (6.) As directed by BSRA, transfer title to the Government and deliver to BSRA
 - (a.) The fabricated or un-fabricated parts, work in process, completed work, supplies, and other material produced or acquired for the Work terminated, and

- (b.) The completed or partially completed plans, drawings, information, and other property that, if this Subcontract had been completed, would be required to be furnished to BSRA.
 - (7.) Complete performance of the Work not terminated.
 - (8.) Take any action that may be necessary, or that BSRA may direct, for the protection and preservation of the property related to this Subcontract that is in the possession of Subcontractor and in which BSRA has or may acquire an interest.
 - (9.) Use its best efforts to sell, as directed or authorized by BSRA, any property of the types referred to in subparagraph (6) above; provided, however, that Subcontractor (i) is not required to extend credit to any purchaser and (ii) may acquire the property under the conditions prescribed by, and at prices approved by, BSRA. The proceeds of any transfer or disposition will be applied to reduce any payments to be made by BSRA under this Subcontract, credited to the price or cost of the Work, or paid in any other manner directed by BSRA.
- C. After expiration of the plant clearance period as defined in Subpart 45.6 of the Federal Acquisition Regulation, Subcontractor may submit to BSRA a list, certified as to quantity and quality, of termination inventory not previously disposed of, excluding items authorized for disposition by BSRA. Subcontractor may request BSRA to remove those items or enter into an agreement for their storage. Within fifteen (15) days, BSRA will accept title to those items and remove them or enter into a storage agreement. BSRA may verify the list upon removal of the items, or if stored, within forty-five (45) days from submission of the list, and shall correct the list, as necessary, before final settlement.
- D. After termination, Subcontractor shall submit a final termination settlement proposal to BSRA in the form and with the certification prescribed by BSRA. Subcontractor shall submit the proposal promptly, but no later than one (1) year from the effective date of termination, unless extended in electronic writing by BSRA upon written request of Subcontractor within this one-year period. However, if BSRA determines that the facts justify it, a termination settlement proposal may be received and acted on after one (1) year or any extension. If Subcontractor fails to submit the proposal within the time allowed, BSRA may determine, on the basis of information available, the amount, if any, due Subcontractor because of the termination and shall pay the amount determined.
- E. Subject to paragraph D above, Subcontractor and BSRA may agree upon the whole or any part of the amount to be paid because of the termination. The amount may include a reasonable allowance for profit on work done. However, the agreed amount, whether under this paragraph E or paragraph F below, exclusive of settlement costs, may not exceed the total Subcontract price as reduced by
- (1.) The amount of payments previously made and
 - (2.) The Subcontract price of Work not terminated. This Subcontract shall be amended, and Subcontractor paid the agreed amount. Paragraph F below shall not limit, restrict, or affect the amount that may be agreed upon to be paid under this paragraph.
- F. If Subcontractor and BSRA fail to agreed on the whole amount to be paid because of the termination of Work, BSRA shall pay Subcontractor the amounts determined by BSRA as follows, but without duplication of any amounts agreed on under paragraph E of this Section:
- (1.) For Work performed before the effective date of termination, the total (without duplication of any items) of:
 - (a.) The cost of the Work;
 - (b.) The cost of settling and paying termination settlement proposals under terminated Lower-Tier Subcontracts that are properly chargeable to the terminated portion of this Subcontract, if not included in subparagraph (a) above; and
 - (c.) A sum, as profit on subparagraph (a) above, determined by BSRA under section 49.202 of the Federal Acquisition Regulation, in effect on the date of this Subcontract, to be fair and reasonable; however, if it appears that Subcontractor would have sustained a loss on the entire Subcontract had it been completed, BSRA shall allow no profit under this subparagraph (c) and shall reduce the amount of the settlement to reflect the indicated rate of loss.
 - (2.) The reasonable costs of settlement of the work terminated, including:
 - (a.) Accounting, legal, clerical, and other expenses reasonably necessary for the preparation of termination settlement proposals and supporting data;
 - (b.) The termination and settlement of Lower-Tier Subcontracts (excluding the amounts of such settlements); and
 - (c.) Preservation and protection of property under paragraph B (8) of this section.

- G. Except for normal spoilage, and except to the extent that BSRA expressly assumed the risk of loss, BSRA shall exclude from the amounts payable to Subcontractor under paragraph F above, the fair value, as determined by BSRA, of property that is destroyed, lost, stolen, or damaged so as to become undeliverable to BSRA or to a BSRA Procurement Specialist.
- H. The cost principles and procedures of Part 31 of the Federal Acquisition Regulation as supplemented or modified by Part 931 of the Department of Energy Acquisition Regulation, in effect on the date of this Subcontract, shall govern all costs claimed, agreed to, or determined under this Section.
- I. If Subcontractor failed to submit the termination settlement proposal within the time provided in paragraph D or K and failed to request a time extension, the decision of BSRA is final and not subject to the section titled, "Disputes". If BSRA has made a determination of the amount due under paragraph D, F, or K, BSRA shall pay Subcontractor
- (1.) The amount determined by BSRA, if there is no right of appeal or if no timely appeal has been taken, or
 - (2.) The amount finally determined on an appeal.

 - (3.) The agreed price for, or the proceeds of sale of, materials, supplies, or other things acquired by Subcontractor or sold under the provisions of this article and not recovered by or credited to BSRA.
- K. If the termination is partial, Subcontractor may file a proposal with BSRA for an equitable adjustment of the price(s) of the continued portion of this Subcontract. BSRA shall make any equitable adjustment agreed upon. Any proposal by Subcontractor for an equitable adjustment under this section shall be requested within ninety (90) days from the effective date of termination unless extended electronically by BSRA.
- L. BSRA may, under the terms and conditions it prescribes, make partial payments and payments against cost incurred by Subcontractor for the terminated portion of this Subcontract, if BSRA believes the total of these payments will not exceed the amount to which Subcontractor will be entitled. If the total payments exceed the amount finally determined to be due, Subcontractor shall repay the excess to BSRA upon demand, together with interest computed at the rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2). Interest shall be computed for the period from the date the excess Payment is received by Subcontractor to the date the excess is repaid. Interest shall not be charged on any excess payment due to a reduction in Subcontractor's termination settlement proposal because of retention or other disposition of termination inventory until ten (10) days after the date of the retention or disposition, or a later date determined by BSRA because of the circumstances.
- M. Unless otherwise provided in this Subcontract or by statute, Subcontractor shall maintain all records and documents relating to the terminated portion of this Subcontract for three (3) years after final settlement. This includes all books and other evidence bearing on Subcontractor's costs and expenses under this Subcontract. Subcontractor shall make these records and documents available to the Government, at Subcontractor's office, at all reasonable times, without any direct charge. If approved by BSRA, photographs, microphotographs, or other authentic reproductions may be maintained instead of original records and documents.
- N. Upon receipt of a notice of termination, the Subcontractor shall, unless the notice requires otherwise, discontinue all performance on the date and to the extent specified in the notice, and shall otherwise minimize costs to the BSRA. Payment for items already completed or in the process of completion, shall be adjusted between the Subcontractor and the BSRA in a fair and reasonable manner for all costs determined to be allowable by BSRA in accordance with the cost principles set forth in the FAR and DEAR, as applicable, but such payment shall exclude any allowance for the uncompleted portion of the items, or any anticipated profits thereon. Such payment for items already completed or in the process of completion shall be the total compensation due to the Subcontractor for termination at will by the BSRA.
- 1.17. **DISPUTES**

If those attempts fail, then the dispute will be mediated by a mutually acceptable mediator chosen by the Parties within thirty (30) days after written notice by one party demanding mediation. Neither Party may unreasonably withhold consent to the selection of a mediator and both Parties will share the costs of the mediation equally. Any dispute which cannot be resolved between the Parties through negotiation or mediation shall be resolved by litigation in a court of competent jurisdiction located in the State of South Carolina. 1.18. **PRICING OF ADJUSTMENTS**

- A. When costs are a factor in any determination of a Subcontract price adjustment pursuant to the Section titled, "Changes, Extras, and Substitutions" or any other provisions of this Subcontract, such costs shall be in accordance with the contract cost principles and procedures in Part 31 of the FAR as supplemented or modified by DEAR Part 931, in effect on the date of this Subcontract.

- B. Green purchasing or sustainable acquisition has several interacting initiatives. The subcontractor must comply with initiatives that are current as of the contract award date. DOE may require compliance with revised initiatives from time to time. The subcontractor may request an equitable adjustment to the terms of its contract using the procedures in the Changes clause of the contract. The initiatives important to these Executive Orders are explained on the following Government or Industry Internet Sites:
- (1.) Recycled Content Products are described at <http://epa.gov/cpg>
 - (2.) Biobased Products are described at <http://www.biopreferred.gov/>
 - (3.) Energy efficient products are at <http://www.energystar.gov/products> for Energy Star products

To the extent that the services provided by the subcontractor require provision of any of the above types of products, the subcontractor must provide the energy efficient and environmentally sustainable type of product unless that type of product—
- (1.) Is not available

- (2.) Is not life cycle cost effective or does not exceed 110% of the price of alternative items if life cycle cost data is unavailable (EPEAT is an example of lifecycle costs that have been analyzed by DOE and found to be acceptable at the silver and gold level);
 - (3.) Does not meet performance needs; or,
 - (4.) Cannot be delivered in time to meet a critical need.
- D. In the performance of this contract, the subcontractor shall comply with the requirements of Executive Order 13423, Strengthening Federal Environmental, Energy and Transportation Management, (<http://www.epa.gov/greeningepa/practices/eo13423.html>) and Executive Order 13514, Federal Leadership in Environmental, Energy, and Economic Performance (<http://www.archives.gov/federal-register/executive-orders/disposition.html>). - G. These provisions shall be flowed down only to first tier subcontracts exceeding the Simplified Acquisition Threshold that support operation of the DOE facility and offer significant subcontracting opportunities for energy efficient or environmentally sustainable products or services. The Subcontractor, if subcontracting opportunities for sustainable and environmentally preferable products or services exceed the threshold in paragraph (E) of this clause, will comply with the procedures in paragraphs (C) through (E) of this clause regarding the collection of all data necessary to generate the reports required under paragraphs (C) through (E) of this clause, and submit the reports directly to the BSRA's Environmental Sustainability Coordinator at the supported facility. NOTE: If applied, this section consists of additional paragraphs to the section titled, "Delivery and Payment". In the event of an inconsistency between these additional paragraphs A - E and the section titled, "Delivery and Payment", these additional paragraphs take precedence.

- A. BSRA shall make progress payments monthly as the work proceeds or at more frequent intervals as determined by BSRA, on estimates of work accomplished which meet the standards of quality established under the Subcontract, as approved by BSRA. If requested by BSRA, the Subcontractor shall furnish a breakdown of the total Subcontract price showing the amount included therein for each principal category of the Work, in such detail as requested, to provide a basis for determining progress payments. In the preparation of estimates BSRA may authorize material delivered on the site and preparatory work done to be taken into consideration. Material delivered to the Subcontractor at locations other than the site may also be taken into consideration if:
 - (1.) Consideration is specifically authorized by this Subcontract; and
 - (2.) The Subcontractor furnished satisfactory evidence that it has acquired title to such material and that the material will be used to perform this Subcontract.
- B. All materials and work covered by progress payments made shall, at the time of payment, become the sole property of the Government, but this shall not be construed as:
 - (1.) Relieving the Subcontractor from the sole responsibility for all material and work upon which payments have been made or the restoration of any damaged work; or
 - (2.) Waiving the right to BSRA to require the fulfillment of all the terms of the Subcontract.
- C. In making progress payments, BSRA shall retain, until completion and acceptance of all work, ten (10) percent of the estimated value of work accomplished as of the date of the current application for payment. After the estimated value of Work accomplished exceeds fifty (50) percent of the Subcontract amount, and provided the Subcontractor is proceeding with the Work in the manner and time satisfactory to BSRA, BSRA may reduce the amount to be retained to five (5) percent of the estimated value of Work accomplished as of the date of the current application for payment, or to such lesser amount, including none, as may be decided upon by BSRA.
- D. Notwithstanding any provision of this Subcontract, progress payments shall not exceed 80 percent on work accomplished on undefinitized Subcontract actions. An Subcontract action is any action resulting in an Subcontract, as defined as "Contract" in FAR Subpart 2.1, including Subcontract modifications for additional supplies or services, but not including Subcontract modifications that are within the scope and under the terms of the Subcontract, such as Subcontract modifications issued pursuant to the "Changes, Extras and Substitution" Section, or funding and other administrative changes.

3.14. VARIATION OF ESTIMATED QUANTITY

NOTE: If invoked in this Subcontract, this Section applies to services only.

- A. If the quantity of a unit-priced item in this Subcontract is an estimated quantity and the actual quantity of the unit-priced item varies more than fifteen (15) percent (%) above or below the estimated quantity, an equitable adjustment in the Subcontract price shall be made upon demand of either party. The equitable adjustment shall be based upon any increase or decrease in costs due solely to the variation above 115 percent or below 85 percent of the estimated quantity. If the quantity variation is such as to cause an increase in the time necessary for completion, the Subcontractor may request, in writing, an extension of time, to be received by BSRA within ten (10) days from the beginning of the delay, or within such further period as may be granted by BSRA before the date of final settlement of the Subcontract. Upon the receipt of a written request for an extension, BSRA shall ascertain the facts and make an adjustment for extending the completion date as, in the judgment of BSRA, is justified.

3.15. **CHANGES, EXTRAS, AND SUBSTITUTIONS – (SUPPLEMENT)**

NOTE: Inclusion of this Section supplements the section titled, “Changes, Extras and Substitutions” within these General Provisions.

- A. In the event of an emergency which BSRA determines endangers life or property, BSRA may use oral orders to Subcontractor for any work required by reason of such emergency. Subcontractor shall commence and complete such emergency work as directed by BSRA. Such orders will be confirmed by written Change Order.
- B. Pricing of Adjustments. When costs are a factor in any determination of an order adjustment pursuant to the Section titled “Changes, Extras and Substitutions”, or any other section of this Subcontract, such costs, upward or downward, shall be submitted by Subcontractor in the form of a lump sum proposal. The proposal shall include an itemized breakdown of all increases or decreases in at least the following detail:
- (1.) Direct Labor
 - (a.) Charges for labor furnished and used by Subcontractor shall be allowable for all manual classifications up to and including foremen. Charges shall not be included for superintendents, assistant superintendents, general foreman, surveyors, office personnel, timekeepers, a maintenance mechanics; these costs are recovered in the overhead and profit rates established by this Section. Labor rates used to calculate the costs shall be those rates in effect during accomplishment of the changes.

Direct labor costs shall include, in addition to direct payroll costs, payroll taxes, insurance, vacation allowance, subsistence, travel time, overtime premium and any other payroll additives Required to be paid by Subcontractor by law or labor agreement(s), e.g. project agreement, collective bargaining agreement(s), etc. Copies of certified pertinent payrolls shall be submitted to BSRA.
 - (2.) Equipment
 - (a.) Charges shall be allowable for the rental and operation of all Subcontractor’s equipment furnished and used by Subcontractor, except for equipment or tools with a new cost at point of origin of Five Hundred Dollars (\$500) or less each, which are determined to be covered in the overhead and profit rates established by this Section.
 - (b.) For Subcontractor-owned equipment, reasonable equipment charges shall be allowed in accordance with the following:

 - (iii.) Appropriately discounted to stand-by rates for idle time reasonably required.
 - (c.) When the operated use of equipment is infrequent and, as determined by BSRA, such equipment need not remain at the work site continuously, charges shall be limited to actual hours of use. Equipment not operating but retained at the location of changes at BSRA’s direction shall be charged at the standby rate.
 - (d.) For rental equipment not owned by Subcontractor, charges will be computed on the basis of actual invoice cost.
 - (e.) For the cost of both rented and owned to be allowable, Subcontractor must justify and BSRA agree that the individual pieces of equipment are needed, are appropriate for the work, and that the mobilization costs are allocable to the change.

- (3.) Materials
 - (a.) Approved incurred costs for material incorporated into the changed Work or required for temporary facilities made necessary by the change shall be allowable at net cost delivered to the Jobsite.
- (4.) Overhead, Profit and All Other Costs
 - (a.)  - (c.) For work subcontracted to a subtier subcontractor by Subcontractor, the proposal submitted to BSRA shall only include one overhead percentage and one profit percentage in addition to Subcontractor's markup. No more than these three percentages will be allowed regardless of the number of tiers of Subcontractor. The subtier subcontractor's percentage of overhead and profit shall not exceed those shown below.

| Subcontracted Work | Overhead | Profit | Markup |

3.16. RIGHT OF REFUSAL OF EMPLOYMENT

- A. The scope of work described herein as currently being performed by the BSRA Procurement Specialist (BSRA) employees and award of a subcontract may displace these workers. Consistent with section 3161 of the National Defense Authorization Act (PL 102-484), if the Seller needs to hire additional employees beyond those already part of its existing work force as of the date of this solicitation in order to satisfy the performance requirements set forth by the scope of work in this solicitation, the Subcontractor must first consider the employment of qualified displaced DOE contractor employees who meet the 3161 Job Attachment Test prior to using other avenues to fill that employment need. At the time of award of the Subcontract, the BSRA Procurement Specialist shall make available to the Subcontractor a list of displaced employees with sufficient information to allow for contact. This requirement shall be included in the resultant Subcontract and be in effect from the date of award of the Subcontract.

3.17. COPYRIGHTS FOR BSRA DIRECTED TECHNICAL PERFORMANCE

- A. Subcontractor shall cause its employee(s) to assign to BSRA all rights under the copyright in all works of authorship prepared at the direction of BSRA during the term of this Subcontract. Subcontractor shall include terms in its arrangements with its employee(s) to require such assignments to BSRA. To the extent that such works of authorship are considered to be works made for hire for Subcontractor, Subcontractor agrees to assign and does hereby assign all of its rights under the copyrights in such works to BSRA or the U. S. Government.

3.18. PERFORMANCE-BASED MILESTONE PAYMENTS

- A. Amount of payments and limitations on payments. Subject to such other limitations and conditions as are specified in this Subcontract and this section, the amount of payments and limitations on payments shall be specified in the Subcontract's description of the basis for payment.
- B. Subcontractor request for performance-based payment.
 - (1.) The Subcontractor may submit requests for payment of performance-based payments not more frequently than monthly, in a form and manner acceptable to BSRA. Unless otherwise authorized by the BSRA, all performance-based payments in any period for which payment is being requested shall be included in a single request, appropriately itemized and totaled. The Subcontractor's request shall contain the information and certification detailed in paragraphs (L) and (M) of this article.
- C. Approval and payment of requests.

- (1.) The Subcontractor shall not be entitled to payment of a request for performance-based payment prior to successful accomplishment of the event or performance criterion for which payment is requested. The BSRA Procurement Specialist shall determine whether the event or performance criterion for which payment is requested has been successfully accomplished in accordance with the terms of the Subcontract. BSRA may, at any time, require the Subcontractor to substantiate the successful performance of any event or performance criterion which has been or is represented as being payable.
- (2.) The approval by BSRA of a request for performance-based payment does not constitute an acceptance by BSRA and does not excuse the Subcontractor from performance of obligations under this Subcontract.

D. Liquidation of performance-based payments

- (1.) Performance-based finance amounts paid prior to payment for delivery of an item shall be liquidated by deducting a percentage or a designated dollar amount from the delivery payment. If the performance-based finance payments are on a delivery item basis, the liquidation amount for each such line item shall be the percent of that delivery item price that was previously paid under performance-based finance payments or the designated dollar amount. If the performance-based finance payments are on a whole Subcontract basis, liquidation shall be by either predesignated liquidation amounts or a liquidation percentage.
- (2.) If at any time the amount of payments under this Subcontract exceeds any limitation in this Subcontract, the Subcontractor shall repay to BSRA the excess. Unless otherwise determined by BSRA, such excess shall be credited as a reduction in the unliquidated performance-based payment balance(s), after adjustment of invoice payments and balances for any retroactive price adjustments.

E. Reduction or suspension of performance-based payments

BSRA may reduce or suspend performance-based payments, liquidate performance-based payments by deduction from any payment under the Subcontract, or take a combination of these actions after finding upon substantial evidence any of the following conditions:

- (1.) The Subcontractor failed to comply with any material requirement of this Subcontract (which includes paragraphs (H) and (I) of this section).
- (2.) Performance of this contract is endangered by the Subcontractor's—
 - (a.) Failure to make progress; or
 - (b.) Unsatisfactory financial condition
- (3.) The Subcontractor is delinquent in payment of any subtier subcontractor or Subcontractor under this Subcontract in the ordinary course of business.

F. Title

- (1.) Title to the property described in this paragraph (F) shall vest in the Government. Vestiture shall be immediately upon the date of the first performance-based payment under this Subcontract, for property acquired or produced before that date. Otherwise, vestiture shall occur when the property is or should have been allocable or properly chargeable to this Subcontract.
- (2.) "Property," as used in this Section, includes all of the following described items acquired or produced by the Subcontractor that are or should be allocable or properly chargeable to this Subcontract under sound and generally accepted accounting principles and practices:
 - (a.) Parts, materials, inventories, and work in process;
 - (b.) Special tooling and special test equipment to which the Government is to acquire title under any other clause of this Subcontract;
 - (c.) Nondurable (i.e., noncapital) tools, jigs, dies, fixtures, molds, patterns, taps, gauges, test equipment and other similar manufacturing aids, title to which would not be obtained as special tooling under paragraph (F)(2)(b) of this clause; and
 - (d.) Drawings and technical data, to the extent the Subcontractor or Subcontractor are required to deliver them to BSRA by other sections of this Subcontract.
- (3.) Although title to property is in the Government under this Section, other applicable sections of this Subcontract (e.g., the termination or special tooling sections) shall determine the handling and disposition of the property.

- (4.) The Subcontractor may sell any scrap resulting from production under this Subcontract, without requesting BSRA's approval, provided that any significant reduction in the value of the property to which the Government has title under this clause is reported in writing to BSRA.
- (5.) In order to acquire for its own use or dispose of property to which title is vested in the Government under this clause, the Subcontractor must obtain BSRA's advance approval of the action and the terms. If approved, the basis for payment (the events or performance criteria) to which the property is related shall be determined not to be in compliance with the terms of the Subcontract and not payable (if the property is part of or needed for performance), and the Subcontractor shall refund the related performance-based payments in accordance with paragraph (D) of this section.
- (6.) When the Subcontractor completes all of the obligations under this Subcontract, including liquidation of all performance-based payments, title shall vest in the Subcontractor for all property (or the proceeds thereof) not—
 - (a.) Delivered to, and accepted by, BSRA under this Subcontract; or
 - (b.) Incorporated in supplies delivered to, and accepted by, BSRA under this Subcontract and to which title is vested in the Government under this section.
- (7.) The terms of this Subcontract concerning liability for Government-furnished property shall not apply to property to which the Government acquired title solely under this section.

G. Risk of Loss

- (1.) Before delivery to and acceptance by BSRA, the Subcontractor shall bear the risk of loss for property, the title to which vests in the Government under this section, except to the extent BSRA expressly assumes the risk. If any property is damaged, lost, stolen, or destroyed, the basis of payment (the events or performance criteria) to which the property is related shall be determined to be not in compliance with the terms of the Subcontract and not payable (if the property is part of or needed for performance), and the Subcontractor shall refund the related performance-based payments in accordance with paragraph (D) of this section.

H. Records and Controls

- (1.) The Subcontractor shall maintain records and controls adequate for administration of this section. The Subcontractor shall have no entitlement to performance-based payments during any time the Subcontractor's records or controls are determined by BSRA to be inadequate for administration of this section.

I. Reports and BSRA access.

- (1.) The Subcontractor shall promptly furnish reports, certificates, financial statements, and other pertinent information requested by BSRA for the administration of this section and to determine that an event or other criterion prompting a financing payment has been successfully accomplished. The Subcontractor shall give BSRA reasonable opportunity to examine and verify the Subcontractor's records and to examine and verify the Subcontractor's performance of this Subcontract for administration of this section.

J. Special terms regarding default

- (1.) If this Subcontract is terminated under the Default section,
 - (a.) the Subcontractor shall, on demand, repay to BSRA the amount of unliquidated performance-based payments, and
 - (b.) title shall vest in the Subcontractor, on full liquidation of all performance-based payments, for all property for which BSRA elects not to require delivery under the Default section of this Subcontract. BSRA shall be liable for no payment except as provided by the Default section.

K. Reservation of Rights

- (1.) No payment or vesting of title under this clause shall—
 - (a.) Excuse the Subcontractor from performance of obligations under this Subcontract; or
 - (b.) Constitute a waiver of any of the rights or remedies of the parties under the Subcontract.
- (2.) BSRA's rights and remedies under this article—
 - (a.) Shall not be exclusive, but rather shall be in addition to any other rights and remedies provided by law or this Subcontract; and

- (b.) Shall not be affected by delayed, partial, or omitted exercise of any right, remedy, power, or privilege, nor shall such exercise or any single exercise preclude or impair any further exercise under this section or the exercise of any other right, power, or privilege of BSRA.

L. Content of Subcontractor's request for performance-based payment

The Subcontractor's request for performance based payment shall contain the following:

- (1.) The name and address of the Subcontractor;
- (2.) The date of the request for performance-based payment;
- (3.) The Subcontract number and/or other identifier of the Subcontractor under which the request is made;
- (4.) Such information and documentation as is required by the Subcontract's description of the basis for payment; and
- (5.) A certification by a Subcontractor official authorized to bind the Subcontractor, as specified in paragraph (M) of this section.

M. Content of Subcontractor's certification

- (1.) As required in paragraph L(5) of this section, the Subcontractor shall make the following certification in each request for performance-based payment:

I certify to the best of my knowledge and belief that –

- (a.) This request for performance-based payment is true and correct; this request (and attachments) has been prepared from the books and records of the Subcontractor, in accordance with the Subcontract and the instructions of BSRA;
- (b.) (Except as reported in writing on), all payments to subtier subcontractor under this Subcontract have been paid, or will be paid, currently, when due in the ordinary course of business;
- (c.) There are no encumbrances (except as reported in writing on) against the property acquired or produced for, and allocated or properly chargeable to, the Subcontract which would affect or impair the Government's title;
- (d.) There has been no materially adverse change in the financial condition of the Subcontractor since the submission by the Subcontractor to BSRA of the most recent written electronic information dated [redacted]; and
- (e.) After the making of this requested performance-based payment, the amount of all payments for each deliverable item for which performance-based payments have been requested will not exceed any limitation in the Subcontract, and the amount of all payments under the Subcontract will not exceed any limitation in the Subcontract.

3.19. **DEAR 952.204 – SECURITY REQUIREMENTS (JUNE 2009)**

NOTE: Applicable if under the terms of this Subcontract, Subcontractor will be required to possess access authorizations (L or Q Security Clearance). As prescribed in 904.404(d) (1), the following clause shall be included in Subcontracts entered into under section 31 (research assistance, 42 U.S.C. 2051), or section 41 (ownership and operation of production facilities, 42 U.S.C. 2061) of the Atomic Energy Act of 1954, and in other Subcontracts which involve or are likely to involve classified information or special nuclear material.

- A. Responsibility. It is the Subcontractor's duty to protect all Classified Information, special nuclear material and other DOE property. The Subcontractor shall, in accordance with DOE security regulations and requirements, be responsible for protecting all Classified Information and all classified matter (including documents, material and Special Nuclear Material) which are in the Subcontractor's possession in connection with the performance of work under this Subcontract against sabotage, espionage, loss or theft. Except as otherwise expressly provided in this Subcontract, the Subcontractor shall, upon completion or termination of this Subcontract, transmit to DOE any classified matter or Special Nuclear Material in the possession of the Subcontractor or any person under the Subcontractor's control in connection with performance of this Subcontract. If retention by the Subcontractor of any classified matter is required after the completion or termination of the Subcontract, the Subcontractor shall identify the items and classification levels and categories of matter proposed for retention, the reasons for the retention, and the proposed period of retention. If the retention is approved by the DOE Contracting Officer, the security provisions of the Subcontract shall continue to be applicable to the classified matter retained. Special Nuclear Material shall not be retained after the completion or termination of the Subcontract.

- B. Regulations. The Subcontractor agrees to comply with all security regulations and Subcontract requirements of DOE in effect on the date of award.
- C. Definition of Classified Information. The term "Classified Information" means information that is classified as Restricted Data or Formerly Restricted Data under the Atomic Energy Act of 1954, or information determined to require protection against unauthorized disclosure under Executive Order 12958, Classified National Security Information, as amended, or prior Executive Orders, which is identified as National Security Information.
- D. Definition of Restricted Data. The term "Restricted Data" means all data concerning design, manufacture, or utilization of atomic weapons, production of special nuclear material; or the use of special nuclear material in the production of energy, but excluding data declassified or removed from the Restricted Data category pursuant to 42 U.S.C. 2162 [Section 142, as amended, of the Atomic Energy Act of 1954].
- E. Definition of Formerly Restricted Data. The term "Formerly Restricted Data" means information removed from the Restricted Data category based on a joint determination by DOE or its predecessor agencies and the Department of Defense that the information: (1) relates primarily to the military utilization of atomic weapons; and (2) can be adequately protected as National Security Information. However, such information is subject to the same restrictions on transmission to other countries or regional defense organizations that apply to Restricted Data.
- F. Definition of National Security Information. The term "National Security Information" means information that has been determined, pursuant to Executive Order 12958, Classified National Security Information, as amended, or any predecessor Executive Order, to require protection against unauthorized disclosure, and that is marked to indicate its classified status when in documentary form.
- G. Definition of Special Nuclear Material. The term "Special Nuclear Material" means: (1) plutonium, uranium enriched in the isotope 233 or in the isotope 235, and any other material which, pursuant to 42 U.S.C. 2071 [section 51 as amended, of the Atomic Energy Act of 1954] has been determined to be special nuclear material, but does not include source material; or (2) any material artificially enriched by any of the foregoing, but does not include source material.
- H. Access Authorizations of Personnel
- (1.) The Subcontractor shall not permit any individual to have access to any Classified Information or Special Nuclear Material, except in accordance with the Atomic Energy Act of 1954, and the DOE's regulations and Subcontract requirements applicable to the particular level and category of Classified Information or particular category of Special Nuclear Material to which access is required.
 - (2.) The Subcontractor must conduct a thorough review, as defined at 48 CFR 904.401, of an uncleared applicant or uncleared employee, and must test the individual for illegal drugs, (BSRA to provide this testing), prior to selecting the individual for a position requiring a DOE access authorization.
- I. A review must: Verify an uncleared applicant's or uncleared employee's educational background, including any high school diploma obtained within the past five years, and degrees or diplomas granted by an institution of higher learning; contact listed employers for the last three years and the three listed personal references; conduct local law enforcement checks when such checks are not prohibited by state or local law or regulation and when the uncleared applicant or uncleared employee resides in the jurisdiction where the Subcontractor is located; and conduct a credit check and other checks as appropriate.
- (1.) Subcontractor reviews are not required for an applicant for DOE access authorization who possesses a current access authorization from DOE or another Federal agency, or whose access authorization may be reapproved without a federal background investigation pursuant to Executive Order 12968, Access to Classified Information (August 4, 1995), Sections 3.3(c) and (d).
 - (2.) In collecting and using this information to make a determination as to whether it is appropriate to select an uncleared applicant or uncleared employee to a position requiring an access authorization, the Subcontractor must comply with all applicable laws, regulations, and Executive Orders, including those:
 - (a.) Governing the processing and privacy of an individual's information, such as the Fair Credit Reporting Act, Americans with Disabilities Act (ADA), and Health Insurance Portability and Accountability Act; and
 - (b.) prohibiting discrimination in employment, such as under the ADA, Title VII and the Age Discrimination in Employment Act, including with respect to pre- and post-offer of employment disability related questioning.
 - (3.) In addition to a review, each candidate for a DOE access authorization must be tested to demonstrate the absence of any illegal drug (BSRA to provide this testing), as defined in 10 CFR Part 707.4. All positions requiring access authorizations are determined to be testing designated positions in accordance with 10 CFR Part 707. All employees possessing access authorizations are subject to applicant, random or for cause testing for use of illegal

drugs. DOE will not process candidates for a DOE access authorization unless their tests confirm the absence from their system of any illegal drug.

- (4.) When an uncleared applicant or uncleared employee receives an offer of employment for a position that requires a DOE access authorization, the Subcontractor shall not place that individual in such a position prior to the individual's receipt of a DOE access authorization, unless an approval has been obtained from the head of the cognizant local security office. If the individual is hired and placed in the position prior to receiving an access authorization, the uncleared employee may not be afforded access to Classified Information or matter or Special Nuclear Material (in categories requiring access authorization) until an access authorization has been granted.
- (5.) The Subcontractor must furnish to the head of the cognizant local DOE Security Office, in writing, the following information concerning each uncleared applicant or uncleared employee who is selected for a position requiring an access authorization:
 - (a.) The date(s) each review was conducted;
 - (b.) Each entity that provided information concerning the individual;
 - (c.) A certification that the review was conducted in accordance with all applicable laws, regulations, and Executive Orders, including those governing the processing and privacy of an individual's information collected during the review;
 - (d.) A certification that all information collected during the review was reviewed and evaluated in accordance with the Subcontractor's personnel policies; and the results of the test for illegal drugs (BSRA to provide this testing).
 - (e.) The results of the test for illegal drugs (BSRA to provide this testing)

J. Criminal Liability

- (1.) It is understood that disclosure of any classified information relating to the work or services ordered hereunder to any person not entitled to receive it, or failure to protect any Classified Information, Special Nuclear Material, or other Government property that may come to the Subcontractor or any person under the Subcontractor's control in connection with work under this Subcontract, may subject the Subcontractor, its agents, employees, or Subcontractor to criminal liability under the laws of the United States (see the Atomic Energy Act of 1954, 42 U.S.C. 2011 et seq.; 18 U.S.C. 793 and 794).

K. Foreign Ownership, Control, or Influence

- (1.) The Subcontractor shall immediately provide the cognizant security office written electronic notice of any change in the extent and nature of foreign ownership, control or influence over the Subcontractor which would affect any answer to the questions presented in the Standard Form (SF) 328, Certificate Pertaining to Foreign Interests, executed prior to award of this Subcontract. In addition, any notice of changes in ownership or control which are required to be reported to the Securities and Exchange Commission, the Federal Trade Commission, or the Department of Justice, shall also be furnished concurrently to the Contracting Officer

L. If a Subcontractor has changes involving foreign ownership, control, or influence, DOE must determine whether the changes will pose an undue risk to the common defense and security. In making this determination, DOE will consider proposals made by the Subcontractor to avoid or mitigate foreign influences.

M. If the cognizant security office at any time determines that the Subcontractor is, or is potentially, subject to foreign ownership, control, or influence, the Subcontractor shall comply with such instructions as the DOE Contracting Officer shall provide in writing, electronically, to protect any Classified Information or Special Nuclear Material.

N. The DOE Contracting Officer may terminate this Subcontract for default either if the Subcontractor fails to meet obligations imposed by this clause or if the Subcontractor creates a foreign ownership, control, or influence situation in order to avoid performance or a termination for default. The DOE Contracting Officer may terminate this Subcontract for convenience if the Subcontractor becomes subject to foreign ownership, control, or influence and for reasons other than avoidance of performance of the Subcontract, cannot, or chooses not to, avoid or mitigate the foreign ownership, control, or influence problem.

O. Employment announcements

- (1.) When placing announcements seeking applicants for positions requiring access authorizations, the Subcontractor shall include in the written electronic vacancy announcement, a notification to prospective applicants that reviews, and tests for the absence of any illegal drug as defined in 10 CFR 707.4, will be conducted by the employer and a background investigation by the Federal government may be required to obtain an access

authorization prior to employment, and that subsequent reinvestigations may be required. If the position is covered by the Counterintelligence Evaluation Program regulations at 10 CFR 709, the announcement should also alert applicants that successful completion of a counterintelligence evaluation may include a counterintelligence-scope polygraph examination.

- P. Flow down to any subcontractor at any tier. The Subcontractor agrees to insert terms that conform substantially to the language of this clause, including this paragraph, in all Subcontracts under its lower-tier subcontract that will require any subcontractor (at any tier) employees to possess access authorizations. Additionally, the subcontractor at any tier must require such subcontractor to have an existing DOD or DOE facility clearance or submit a completed SF 328, Certificate Pertaining to Foreign Interests, as required in DEAR 952.204-73 and obtain a foreign ownership, control and influence determination and facility clearance prior to award of a subcontract. Information to be provided by a subcontractor (at any tier), pursuant to this clause may be submitted directly to the DOE Contracting Officer.

3.20. **DEAR 952.204-71 – SENSITIVE FOREIGN NATIONS CONTROLS (MAR 2011)**

The following is applicable in subcontracts which may involve making unclassified information about nuclear technology available to sensitive foreign nations

- A. In connection with any activities in the performance of this subcontract, the Subcontractor agrees to comply with the “Sensitive Foreign Nations Controls” requirements attached to this subcontract, relating to those countries, which may from time to time, be identified to the Subcontractor by written notice as sensitive foreign nations. The Subcontractor shall have the right to terminate its performance under this subcontract upon at least forty-five (45) days prior written notice to BSRA Procurement Specialist if the Subcontractor determines that it is unable, without substantially interfering with its policies or without adversely impacting its performance to continue performance of the work under this Subcontract as a result of such notification. If the Subcontractor elects to terminate performance, the provisions of this subcontract regarding Termination for the Convenience of BSRA Section shall apply.
- B. The provisions of this section shall be included in any of Subcontractor’s contracts/agreements with a subtier subcontractor’s supporting performance of this Subcontract which may involve making unclassified information about nuclear technology available to sensitive foreign nations.
