

Internship and Research Participant Programs

Savannah River National Laboratory (SRNL) provides an exciting opportunity for students to experience learning in science, technology, engineering, and mathematics (STEM) and business services in a national laboratory.

Applied Science Professional Internships in a Research Environment (ASPIRE) Program

The ASPIRE Program is open to undergraduate and graduate STEM and non-STEM students. As an SRNL intern, you will have an opportunity to work alongside experienced researchers and staff. The internship is 10 weeks in the summer, with the opportunity to extend for up to one year.

The U.S. Department of Energy Office of Science Workforce Development for Teachers and Scientists (WDTs) Programs

Science Undergraduate Laboratory Internship (SULI) Program

The SULI Program encourages undergraduates from two- and four-year colleges to pursue STEM careers in one of the 17 DOE National Laboratories. The program provides students with an opportunity to do research internships in a laboratory environment. SULI interns will have an opportunity to spend 10 weeks in the summer or 16 weeks in the spring or fall doing research in at SRNL.

Community College Internship (CCI) Program

The CCI Program offers internships in technical areas that support DOE's mission to students from community colleges. The students will have an opportunity to do research at SRNL for 10 weeks in the summer or 16 weeks in the spring or fall.

Visiting Faculty Program (VFP) Internship

The VFP allows faculty members to invite up to two students, undergraduate or graduate, to participate in a research project for 10 weeks in the summer at SRNL. Students must meet the eligibility requirements to apply.
