

LOCATION: Aiken, South Carolina
TYPE: Multidisciplinary
FOUNDED: 1951
DIRECTOR: Dr. Johney Green, Jr.
CONTRACTOR: Battelle Savannah River Alliance

Savannah River National Laboratory puts science to work to protect our nation and environment, and to support energy resilience.

Programs

- Tank Waste Processing
- Nuclear Materials Processing
- Regulatory Center of Excellence
- Advanced Manufacturing Collaboration
- ALTEMIS Monitoring for Groundwater Remediation
- Nuclear Fuel Storage & Reprocessing
- Waste Form Development
- Characterization/Remote Automation/Packaging

srnl.gov

By the Numbers

More than 1400 people contribute to the mission of SRNL including employees, joint appointments, interns, contract staff, and more than **40 postdoctoral** researchers. SRNL is situated on a **39-acre** main campus, valued at **\$3.5B**, home to **~820,000 square feet** of facilities. SRNL has developed and proposed strategies to save **hundreds of millions of dollars** for the EM mission.
